Storm troopers and clone troopers are not the same thing. Vader/Emperor ended the production of clones for something else, i think it had to do with the force unleashed guy, trying to clone a jedi or something. All storm troopers are just poor people.

The Imperial stormtroopers were the evolution of the clone troopers of the Grand Army of the Republic. By the end of the Clone Wars in 19 BBY, the Galactic Republic was reorganized into the first Galactic Empire. As a result, the Grand Army was reformed into the Stormtrooper Corps and the clones were renamed "stormtroopers." Under the Empire, stormtroopers operated alongside Imperial Army and Navy units, and some were stationed on Naval ships where they served as marines. Although the Corps was overseen by Stormtrooper Command, a military agency that was independent from Imperial High Command, all stormtroopers ultimately answered to Emperor Palpatine with unconditional loyalty and subservience.

>his favorite animal is this big ass rancor that he named Priscilla that is really friendly. First time i met it it picked me up and i thought it was going to eat me, but Bob explained that it was just Priscillas way of greeting people and it was trying to lick me as a sign of friendship
>after that i spend all of my time with Bob and Priscilla and we play games togheter.
>Priscillas favourite game is hide and seek and we pretend that we cant find her, even though she takes up half the cave

>yup, old pal Luke Skyfucker who had come to free a statue or

>Mr. J wont have it and tricks Luke McFriendMurderer to fight Priscilla
you should have seen that asshole nearly wet his pants at the mere sight of her. I laughed like a child

>Priscilla just wants to lick that dipshit but he thinks she wants to eat him

>scream to him "dont worry, she just wants to give you a little kiss haha!"

>and what does he do?

>he fucking guillotines Priscilla with the gage door!

>Mr. Luke Fartwalker had now killed the second animal i loved

>I get enraged but try my main concern is to be there for Bob who is completely devastated

>as im holding the weeping Bob in my arms he asks me for a favor

"Kill that murderer.. Revenge Priscilla"

>and i was all too happy to oblige

>next thing we know Skyfaggot will be executed, pirate style by jumping into a sandworm.

>i was asked to be one of the guards on the smaller skyboats overseeing the execution

>mad that i dont have the chance to kill him myself but as long as he dies im happy, right?

- >fall into the gaping sandworm alongside my co-workers

- >we all lol at him
- >hear noises from above and we suspect the J mans yacht speeder got blown up so there's no one who could save us
- >All thanks to Puke Skywalker and his fancy fucking droids
- >Thanks, asshole

so I have been here in the sandworms belly ever since, browsing 4chan on my phone. The battery is solar powered and we get sunlight here for a couple of hourse a day, thank the Force.

It's okay I guess. I mean, my co-workers think this is hell but I kinda like it. Being close to animals have always been my thing and you can't really get closer than being in one's belly but fuck, my battery life is getting low and there's no sun right now so i don't know how long i can type so ill part with these words:

Fuck Luke Skyw
